Buyerâ€™s Beware by Meelzamax on 2021/11/07 07:26 This game starts out amazing, and if you spend money or wait months to progress. But the developers are greedy, want you to spend a lot of your time in the game or spend actual cash. The problem is both I think. One day I was playing it was a normal day and out of nowhere my kingdom got deleted for no reason at all. I emailed them and they said that someone else had reported someone with my name, but there was only one other person with my name on this planet playing this game. Now most people would say that I could just make another account... good luck. The process takes like a week and you have to start over from square one. Once you do, if youâ€™re at an advanced level, the game is set up so that you will no longer play it...in other words

they are banning you because people will eventually find a way to cheat as there is no spam filter and they delete any account with more than one person on it. Either spend lots of cash or just don't get into this game!",

Great game but... by katiebean22 on 2021/03/01 16:32 The game is fun and addictive and I have lost count of the amount of hours I've played it but there are some major issues that need to be fixed. One is the chat room. Whenever I go into a chat room full of people I usually just spam my messages out hoping to get somewhere with one person. Well, I've gotten to the point that the majority of these people don't even respond. It's ridiculous that you have to wait for them to catch up with you in order for them to chat. Another major issue is the items. You see a lot of people wanting certain items but they aren't actually available anymore. One example is a spell that costs 2021 gold coins and only gives you one use and it doesn't replenish every time you win a battle. Lastly, there are a lot of glitches happening when I play the game. Sometimes my troops disappear for no reason and sometimes I lose all my troops even though I am still making moves on the board and it gets old really fast. I would rate the game a 5 but these major issues need to be fixed.",

Coin Master was generally received well by reviewers. Some praised the concept, artwork and its ability to provide both entertainment and nostalgia. Joystiq referred to it as a "trippy looking game" in their review. This sentiment was echoed by Gametrailers who referred to it as "unique". Other critics felt it was too similar to other games, especially "Tetris" and its clones, which were described as being overplayed in general.",

by Kilty2021 on 2021/10/02 00:16 This is such a fun game, and I'm so glad I found this one once again. The graphics are very clear and high quality. The game is easy to play, and the instructions are easy to follow. The adds are not bad at all, as they're not too annoying or intrusive. The game itself is very fun and super addicting! If you download this game, make sure that you get it now! You will love it!!",

Phenomenal for five years and more by Kiki202120219 on 2021/09/22 02:35 I've had this game for 5 years and it hasn't let me down once. The only thing is I don't like how it got too big and how you have to do so many things to be able to open the cool stuff like getting more land, etc. It's really hard to get diamonds but when you do, it's okay. But you can definitely win them by watching videos and doing other things. I love this game so much.",

"Best game ever! I love that you can play with friends anywhere, even when not connected to the internet. This game is so worth playing because of the different levels and how easily it takes all my free time. It would be cool if there were different games you could play with friends online and offline. Also, I would be better off if you could actually get coins without spending your real money on them through in-app purchases or by downloading another game that requires real money."
