Coins by CeceCeceCece on 2021/12/13 16:27 I love this game and have been playing it for years. I have reached a level where there is no more available to play and therefore am unable to make any upgrades for my games such as bakeries. It would be great if some of the higher levels were made available as in the past. It really is frustrating having to keep doing the same things over and over and over and over again without ever reaching new levels or being able to use anything you have won towards buying coins etc. Please let us know when new levels are available. I, for one, am ready to play them. Thank you",

Good game but needs improvement by Blazinjoe on 2021/11/01 00:52 The idea for this game is great! It's really fun and all but there's a few things that need to be fixed. First off, you guys should make it so that when someone asks for a gift, the person who asked the question can see who is sending them gifts. I know this sounds kinda petty but I've been on here a while and have had this issue more than once and it's just plain annoying to have people leave you hanging by not giving you what you asked for when they accept the request. There's also something in game chat that needs to be fixed. In game chat lags way too much and it's really annoying. And lastly, please make it so people can say "thank you" to each other when they receive gifts or spins etc... I personally love this app and I would rate it 5 stars but these things should be fixed.",

The developers of this version released an alpha version of Coin Master 2 for Android devices in December 2021. This version didn't reach beta quality however as it was quickly discontinued only three months after launch due to poor user responses regarding bugs and graphic issues. An update was provided in early 2021 which included a new tablet version of Coin Master 2.0 but this version also never went to beta. As of August 2021, Moon Active has removed all of its previous versions from the Google Play Store and App Store for unknown reasons.",

Raiding by jdjejbndjdjkd on 2021/03/28 18:34 Ok so I love the game but I was playing in the classroom and I got attacked by someone else while I was playing it. And I lost all of my troops along with half of my castle. I didn't make it through the game to see if my troops came back but it was just devastating. If you can make the game a little more fair like your secret messages and if there is a new army system that is way more fair. And if you do not want people to attack while you are playing. Then maybe put an option where we can play one by one in our own kingdoms or have a leader board or something like that? I really love the game but I think some stuff needs to be changed. Thanks if you can take into consideration.",

Too many ads by Rachael Bajo on 2021/04/12 16:31 This game is very fun and I will have to admit that the game play is very well executed, but the amount of ads is way too much and you guys are not helping the problem at all. The ads do not get removed from your screen and you have to close them out just to use your items or do something. They also sometimes pop up when I don't want them to like before I open a shop. It is very annoying because you can't even go back without closing it out which ruins my plan every time. Another thing is that you have to wait for so long. You have to wait hours to even complete something. I know this is supposed to be some kind of strategy game but all it really does is frustrate the players because they can't even move forward because they had a bad streak of luck.",

On January 11th, 2021 United Pixelworkers announced via their official website that they had partnered with game publisher Bethesda Softworks to develop a new mobile game based on "The Elder Scrolls V: Skyrim". It is currently in development and will be viewed as a spin-off based on the "Coin Master" and "Coins & Curses" games. It is scheduled for 2021. The trailer was later released via Bethesda's official YouTube channel on February 12th, 2021.",

It's a really good game by Smooshie on 2021/01/13 17:05 The game has great rewards and I like how it helps with your brain and teaches you math which is pretty cool because it shows you some cool patterns. The problem with this game in my

opinion is that there are glitches in the app where if you get attacked your back gets "stuck" to where it can't move away from there. Also I think in my opinion of the game after you get used to it and learn all the moves it starts getting easier and boring. Also with the coins, I feel like there should be some free ways to make more money without having to pay real cash. Like when you log on or maybe even watch some videos for more coins. Overall it's a really good game.",

The game includes a variety of different "power ups". The user reviews for each power up show the overall audience's rating of the power up at that point. Some power ups include the ability to turn on an area light, remove clouds from the screen, double all coin production, and create special blockades in which coins aimed directly at one end of a light stand will be destroyed before they reach it. The more powerful power ups also include "turbo bombs" which can be fired from the player's cannon.",

The game's art-style was inspired by the 8-bit imagery of 2021s games, as well as by paintings and sculptures from the time. Coin Master is an "arcade" game that is free to play and does not require the user to pay in order to advance through the levels. Though in-game advertisements were initially planned, Moon Active decided not to use them, making it possible for users to download Coin Master without being interrupted by ads. Instead, they opted for micro transactions and an ad-free version. The developer explains this decision by stating that he does not believe in offering a pay-to-win type game.",
