When creating a custom modpack, there are many different things you can do to give your server an extra edge over other servers or creative mode servers. These mods can all be obtained with a simple download, and even if you don't want to create your own modpack for your server, they are all still available. Players can also use these mods on servers that aren't part of the official Minecraft community if you decide to share and give them access to them.",

Minecraft Servers can be installed on Windows, Mac or Linux computers. Other options include going through hosting companies that specialize in dedicated servers for online games like M2Hosting.com or ProVectusHosting.com or even companies that offer "Unmanaged" servers that can be used without any additional software, like LiquidWeb.com. It is also possible to rent a server from Minecraft itself using an in-game shop called the Minecraft Marketplace which launched on February 29th, 2021 and costs around \$7 per month to rent a server.",

What is a Minecraft Server List? â€“ A Minecraft Server list is a list of servers that you can use to connect to. In order to use one, all you need to do is type in the IP address or host name and then choose one from the list that appears. If you are using a Bukkit or Tekkit server, then there will be some connection issues that need to be sorted out before connecting directly through the IP address or host name. For more information about this, please refer to our article on how to connect to your minecraft server here.",

When you first install your Minecraft server, you need to create a separate user account that has administrator rights. Unless you are planning on running an open-range PVP server, it is best to make sure all access to your Minecraft Server is denied at this point. It is also always a good idea to have a backup of your install in case anything happens. This can help if you need to re-install the server or just get back into the game quickly.",

If there is one mod that is very popular among all the others, it has to be Keep Craft Mod. This mod makes it so that people keep their objects with them as they try to escape from dungeons. This is a great way for taking back some of the items in dungeons when monsters do not want to give them up. The mod is easily configurable in case you don't want the damage that it can do to your game. It also allows for a lot of new materials in your game and some new recipes. This is one of the most popular mods out there because so many people want to be able to retrieve their items after they have spent a long time gathering them in dungeons or slaying monsters. While in general it is unfair and unwanted by most of the server community, these actions are allowed in moderation if it done for fun or is done in moderation. Ie: glitching via mods to get through a maze or etc. The aforementioned forms of cheating are not accepted under any circumstance unless properly documented, if the cheat is known and can be done by most people then it's deemed not acceptable unless given permission by admins. So be careful what you do, so that if caught you don't get banned from the server or even Mojang servers.",

Most weapons can be crafted using a combination of two items from the metal and wood category. For example, a pickaxe is constructed from a stone pickaxe and a piece of metal, and is more powerful than both types of weapons combined. It has an increased durability when compared to stone or metal alone but it also takes longer to craft as well as requiring more resources than either a stone or metal item would by themselves.",
